

Information for Incoming Students 2013/14

Please note that due to a profound change in the medical curriculum of the Medical University of Vienna, the possibilities for incoming students will be limited during the next academic year, 2013/14:

- The years 1-4 of the curriculum will remain unchanged. Due to overlapping schedules, modules and line courses can only be picked from one semester. It is only possible to pick modules from different study years after consultation with the International Office in exceptional cases. Line courses can only be picked from one and the same semester as the chosen modules.
- The curricular courses of our 5th and 6th academic year will not be generally open for incoming students, they can only opt for the curricular course “**Emergency Medicine and Intensive Care**” at the following dates:

30.09.-31.10.2013

04.11.-06.12.2013

09.12.-31.01.2014 (no tuition from 16.12.2013-06.01.2014)

24.02.-28.03.2014

31.03.-16.05.2014 (no tuition from 14.04.-25.04.2014)

19.05.-20.06.2014

as well as the curricular course „**Dermatology**“ at the following dates:

14.10.-31.10.2013

18.11.-06.12.2013

13.01.-31.01.2014

10.03.-28.03.2014

28.04.-16.05.2014

02.06.-20.06.2014

The written exam for the curricular courses is held at the end of the academic year (end of June/beginning of July). For students who only come for the winter semester there will be an examination in the semester holidays at the end of February.

It is possible to combine curricular courses with the offered clinical practical courses.

- The students will be welcome to participate in [clinical practical courses in Surgery and Internal Medicine](#). These clinical practical courses will be similar to the “Praktische Jahr” in Germany. It will be possible to arrange individual and ongoing start dates for the incoming students. The clinical practical courses in Surgery and Internal Medicine can be organized in two-weeks-steps (two weeks is the minimum duration per division). Students will receive an evaluation at the end of the course, however there is no written exam for this clinical practical course.
- [Clinical rotations in Emergency Medicine & Intensive Care](#) can be organized in two-weeks-steps with a minimum duration of 2 weeks.

The application for the Medical University of Vienna is an [ONLINE-Application](#) and no other application will be accepted.

The Access Code for the obligatory Online Application will exclusively be sent to students officially nominated by the partner university's International Office (first name, family name and E-Mail address).

For the ONLINE-Application please choose from the following list of all courses available for Incomings 2013/14! No other courses can be offered in 2013/14!
