We call your kind attention that in this course package you can find our standard courses which are launched every year regularly. We also have some extra courses but they are announced only at the beginning of the current semester. However, all courses start only if at least 5 students register for them in our on-line course registration system. We recommend to register well in time for the courses to have a free place on them. The academic calendar on our website shows the exact dates for the course registration:
