

Greetings from a sunny Barcelona!

We would like to inform you that the application period for the autumn semester (and full year) at FIB-UPC is already open.

The deadline to receive the required documents from your students (by post mail) is the 1st of June. Considering that, we would appreciate if you send your nominations before the 30th of April.

Students coming in the spring semester can send their documents up to the 1st of December. However, if you have already nominated them, it would be very useful to have their nominations right now, too.

For more detailed information regarding the application process, please visit http://www.fib.upc.edu/en/erasmus/vols_venir.html

Nomination

To nominate your students you should send us an e-mail containing, at least, the name and surname of the students and their e-mail address.

Following the nomination we will contact the students to send them instructions on how to apply in our on-line application form.

Incoming students are required to have at least an intermediate level (B1) of the teaching language for the chosen degree. Since we will ask the candidates to provide proof of their language knowledge, it would be very useful if you check about it before the nomination. The teaching languages for the different degrees are:

- Bachelor in Informatics Engineering (<http://www.fib.upc.edu/en/estudiar-enginyeria-informatica/assignatures.html>): Spanish/Catalan/English (*)
- Master in Artificial Intelligence (<http://www.fib.upc.edu/en/masters/mai/syllabus.html>): English
- Master in Informatics Engineering (<http://www.fib.upc.edu/en/masters/mei/syllabus.html>): Spanish/Catalan
- Master in Innovation and Research in Informatics (<http://www.fib.upc.edu/en/masters/miri/syllabus.html>): English

(*) A few of the courses of the Bachelor in Informatics Engineering are taught in English. But the offer in English is quite reduced and it cannot be assured for the following academic period, because it is part of a pilot project which is being evaluated every semester. Thus, in terms of teaching language, the Bachelor in Informatics Engineering is considered an Spanish/Catalan taught degree.

Application documents

After completing and printing the on-line application form, students must send it (duly signed and stamped by the person responsible of the mobility at their home university), together with the rest of the documentation, to the address contained in the application form:

Facultat d'Informàtica de Barcelona (FIB-UPC) Campus Nord UPC, Mòdul B6 Jordi Girona, 1-3
E-08034 Barcelona

You can find the list of the required documents at:
http://www.fib.upc.edu/en/tramits/erasmus_in.html

Attached you can find our fact sheet related to international relations.

If you need some additional information/advising, please do not hesitate in contacting us again. Be aware that the only valid e-mail address for the Barcelona School of Informatics (FIB-UPC) in issues related to international relations (bilateral agreements, students exchange, ...) is rel.int@fib.upc.edu

Best regards,

José-Manuel Diéguez
